Alcoholism and drug addiction affect the entire family, and have lasting impact on children unless they get help. Children growing up in addicted families need a safe place to have their own conversation about addiction and recovery. This camp gives them that opportunity.

Our Kids CAMP uses games and other activities to help with learning, but also create an atmosphere of fun! Kids discover the importance of being connected to other kids who have had the same experience. They will also be learning coping skills and building life skills which will be helpful for them now, and in all areas of their lives. Our camp is staffed by Retreat staff and volunteers.

*This program offers supportive education for kids growing up in addicted families. It is not for kids dealing with their own chemical dependency issues. It is not treatment or therapy.*

### KIDS CAN EXPECT TO:

- Learn about addiction and its effects on them.
- Experience that they are not alone.
- Learn that it's not their fault, and that there is help.
- Have some time to just be a kid, including time at the waterfront, in the Big Woods, and at the firepit!
