ANGELS, SAINTS & SINNERS: PIONEERING WOMEN IN THE EARLY DAYS OF AA

Kathleen Cook-Hunter

Let's take a look back to the early days of the 1930's and 40's, a time when many women were seen and not heard: good homemakers, smart women who helped build our country, and some who just drank too much. The stigma of a drunken woman made it extremely difficult to admit to a drinking problem.

So who were these pioneering women in the beginning days of AA? And just how did AA become a fellowship of men and women? They are the women on whose shoulders we stand today. Join us as we hear their stories. We honor them and the contributions that helped build the fellowship of recovery.

Kathleen's career in the travel industry has offered many opportunities to travel the world. Attending AA meetings from Uganda to Laos, she's had a love affair with recovery since 1983. Kathleen's sobriety has a particular emphasis on women's recovery and bringing the AA message of recovery to women in prison and jails. Now she's having a blast sharing the stories of the early days and the women who made it possible for many of us to be sober. Realizing the immense role and the difficulties of many of the early AA women, Kathleen was inspired to create the presentation of Angels, Saints, and Sinners.

Our mission is to create a caring community that provides education, spiritual insight, and growth opportunities for women in 12-step recovery programs.
